

WEATHERIZATION

Door Sweep & Window Insulation Kit

Keep Drafts Out!

Greenlite's weatherization products are to protect your home from the outside elements in order to maximize energy efficiency. Protecting your home from the weather outside is important for every season, not just the colder ones!

WEATHERIZATION

Door Sweep

- Self-adhesive silicone rubber door sweep
- Each sweep is 40" and 1 4/5" tall
- Clear finish
- All season - Seals out cold, drafts and insects
- Conserve energy, save money
- Installs easily, clear with double sided tape
- Fits one standard door frame

Window Insulation Kit

- Easy-to-use kits contain plastic shrink film and two-way tape to seal windows airtight to help eliminate condensation, cold drafts and heat loss.
- An ideal, low-cost way to insulate and eliminate drafts in older windows to save energy and reduce heating and cooling costs while remaining airtight.
- Increases R-value by 90% over an average single pane window.
- Performs like an extra storm window. Shrinks tight for wrinkle-free, clear-as-glass results.
