1 Remote control and mobile notifications require working Internet and Wi-Fi.
 2 Requires working Internet, Wi-Fi and compatible smart devices.
 3 We provide alerts to notify you of a potential issue with your HVAC system. Our goal is to provide helpful information, but we make no endorsement, representation, or warranty of any kind about the health of your HVAC system. Alerts aren't intended to replace a diagnosis by a qualified HVAC professional.
 4 Voice control with Google Assistant requires a compatible smart device.
 5 The Nest Thermostat is designed to work in most homes without a common (C) wire. Installing a new C wire may be required with heat-only or other systems.
