

Smart Home

Smart Plug with Energy Monitoring

Greenlite™ Smart Plug with Energy Monitoring allows you to control and monitor your connected devices remotely. You can set schedules, timers, and voice controls to automate your appliances. The plug provides real-time and historical energy consumption data, helping you identify and reduce energy-wasting devices.

- Create schedules and timers for appliances
- Just plug in and control devices from anywhere
- Track energy consumption
- Voice control with Alexa or Google Assistant
- Monitor and analyze power consumption

Smart App

Monitor your devices with the Greenlite™ App to view usage. Save energy and reduce waste. Easily manage your appliances and optimize your home's energy efficiency.

Control from Anywhere, Anytime

Not sure whether you switched your fan off after leaving home? Double check and control it remotely on your phone or tablet to save energy and avoid electrical hazards.

SPECIFICATIONS

Network	
Protocol	IEEE 802.11b/g/n
