

WEATHERIZATION

Outlet & Switch Sealers

Keep Drafts Out!

Greenlite's weatherization products are to protect your home from the outside elements in order to maximize energy efficiency. Protecting your home from the weather outside is important for every season, not just the colder ones!

Prevent
Hot & Cold
Air Loss.

WEATHERIZATION

Outlet & Switch Sealers

Our Outlet & Switch Sealers eliminate drafts, insulate and help conserve energy when used in exterior wall receptacles.

These precut sealers are placed easily and perfectly under the face plate of the outlet or switch and they are invisible after installation. Fits the standard electric outlets and switches 2 1/2" x 4".
