INSULATING FOAM SEALANT

IDEAL FOR HOME USE - With no special tools required and low VOCs, this fast-curing multipurpose polyurethane foam is a great choice for repair, renovation and construction projects around the house.

MULTIPURPOSE - You can use this low expansion one-component polyurethane foam to install door and window frames; fill holes and gaps in walls; seal out noise, dust and drafts; and as foam insulation. Equipped with reusable straw, allowing multiple uses from one can.

FAST and EASY - Single-component foam is ready to use: simply shake can, attach straw and apply to clean, dry surface.
