

WATER CONSERVATION Kitchen

Conserve water and save money

This inexpensive aerator makes your faucet more efficient and eco-friendly. The conservation bonus of the lower flow rates saves water and saves you on utilities.

Dual thread for kitchens with Push/ Pull feature changes flow from spray to stream. Aerator swivels to reach entire sink. A value-added way to lower flow.

Get the powerful reach of a swivel aerator and the incredible saving of an on/off switch with this water saving 1.5 gpm chrome plated metal thread aerator.
