

WEATHERIZATION

Window Insulation Kit

Keep Drafts Out!

Greenlite's weatherization products are to protect your home from the outside elements in order to maximize energy efficiency. Protecting your home from the weather outside is important for every season, not just the colder ones!

Window Insulation Kit

- Easy-to-use kits contains **3** plastic shrink films 42”x 64” and two-way tape to seal windows airtight to help eliminate condensation, cold drafts and heat loss.
- An ideal, low-cost way to insulate and eliminate drafts in older windows to save energy and reduce heating and cooling costs while remaining airtight.
- Increases R-value by 90% over an average single pane window.
- Performs like an extra storm window. Shrinks tight for wrinkle-free, clear-as-glass results.
